Very clear and helpful!

Jiaqi does a great job in helping students review core class content. He always explains concepts in an very effective way. He is also very patient to every question from student. Generally speaking, I feel appreciated to have Jiaqi to teach our support class.
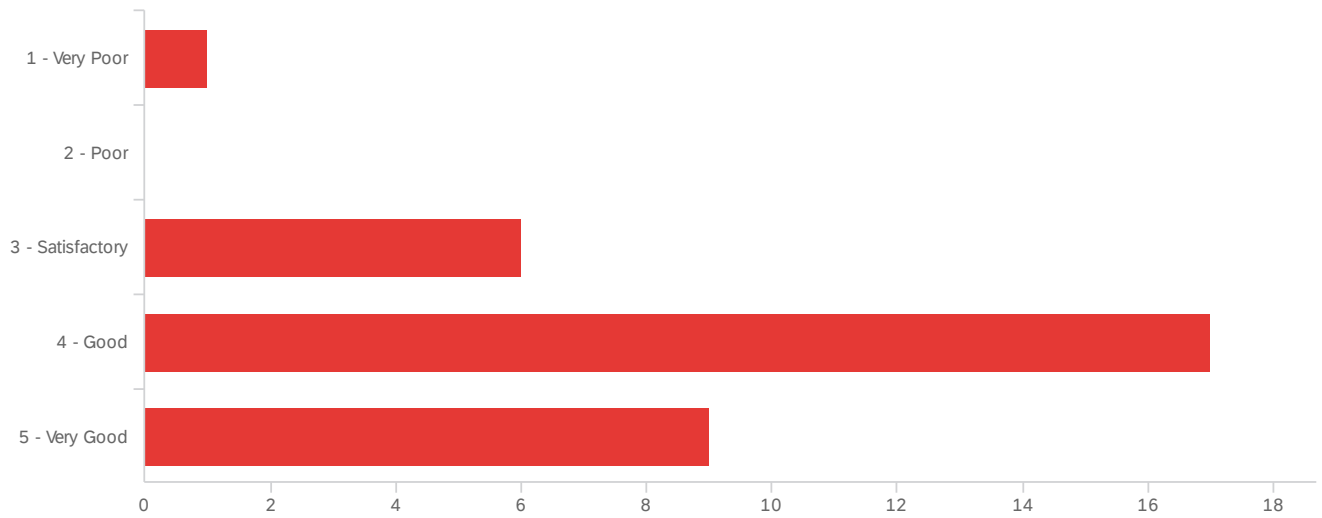

Very clear and helpful!

Very detailed explanations in class, and the presentation is also super clear!! Office hours are also super useful!!

Jiaqi is very good!

Too fast, was a bit unsure about the content of the support class, was a bit sporadic with material

Test

## Q6 - Relevance and importance of the course content

#	Field	Minimum	Maximum	Mean	Std Deviation	Variance	Count
1	Relevance and importance of the course content	1.00	5.00	4.00	0.85	0.73	33

#	Field	Choice Count	
1	1 - Very Poor	3.03%	1

Q9 - If you have any additional feedback on this course, please enter this here:

If you have any additional feedback on this course, please enter this here:

The questions asked are too complicated and dense, some models are not applicable to real world work settings.

Like the case studys, but generally this course is too technical and theoretical to be of good use outside the classroom.

Too much content to learn, seems impossible to learn everything
